This new Section is written in the broad context of assurance engagements, as described in paragraph PS 6150.01. It includes guidance on these matters:

- the relationship between internal and external auditors;
- assessing the internal audit function if the auditor plans to use the work of internal audit;
- evaluating and corroborating specific internal audit work that the auditor intends to use in the audit;
- evaluating the knowledge, competence and independence of internal audit staff members when they are providing direct assistance to the auditor; and
- the circumstances in which it is inappropriate for the auditor to refer in his or her report to the use of internal audit work.

This guidance has also been issued as CICA HANDBOOK, Section 5230.
